

FAMILY BY LOVE

A STORY OF OPEN ADOPTION

BACK COVER

"Family by Love provides a much needed voice for siblings of adopted children. Anticipating a new baby in the home, although exciting, can often leave a child feeling nervous. When adoption is added to the equation, the stress level for parents and their children naturally increases. It is such a unique approach to look at adoption through the eyes of a child. This book offers parents a tool to help children prepare for the adoption of a sibling, as well as beautifully introduce the idea of openness in adoption. Thank you for this valuable contribution to the adoption community!"
